of the affair, are being held for investi-

HOW COUGHS AND COLDS ARE CURED IN BURMA.

The following letter from the Super-
intendent of the Municipal office at
Mandalay, Mr. R. J. Stevens, shows

that the method of curing colds in
Burma is not unlike that used in al-
most every part of the civilized world.

He says: "I have used Chamberlain's
Cough Remedy for several years and
have found it most efficacious. I al-
ways keep a bottle of this remedy in

the house." This medicine is as good
for the child as for the adult and no
family can afford to be without it. It

is for sale by all dealers. Benson,

day morning from Hilo and Maui ports

NEWS OF THE WORLD BY LAST NIGHT'S COAST FILES

MESSINA, January 11.—Search for
the earthquake victims of Italy's last
great earthquake still continues and is
frequently rewarded with the rescue
of the living. Yesterday noon a man
named Bensaja, who had spent fourteen
days without food, looked in the ruins
of his home, was taken out unconscious
and resuscitated. He had been caught
in a kind of strait-jacket formed by
the debris and unable to move, was
compelled to watch the lingering death
of his wife and four children. Satur-
day a married couple were removed,
not only alive but conscious. Their im-
prisonment had lasted thirteen days.

On Saturday night a terrific tempest
accompanied by earthquake shocks
arose at Messina, causing a number of
fresh collapses in the ruined city and
spreading new terror among the sur-
vivors. Most of the people in Messina
were camped under tents or huts, and
nearly all of these were destroyed by
the wind and blinding rain. Over sixty
feet of the landing quays in the harbor
were swept away, carrying off a large
quantity of provisions stored there, and
several horses. Two soldiers narrowly
escaped death. Near Giarre, an im-
mense fissure opened. It was 650 feet
long, three feet wide and 65 feet deep,
and has been styled the "Mouth of
Hell."

The American Consulate, where the
stores from the relief ship Bayern are
being distributed, was besieged all day
yesterday by a crowd of hungry refu-
gees. The American committee, which
has been working strenuously, is re-
ceiving expressions of gratitude from
all quarters. General Manza, who is in
supreme command here, also has thank-
ed Ambassador Grison warmly for the
humanitarian initiative of his countrymen,
suggesting that as the great exodus
from Messina has left the city practi-
cally without any injured, the most
urgent need for the Bayern's services
was along the coast towns, especially
Catania and Syracuse. The Bayern has
proceeded to those ports. The supply-
ship Yankton will remain here to con-
vey to Naples the bodies of American
Consul Cheney and his wife when they
are recovered.

The disinfecting of the city is pro-
gressing rapidly. Disinfectants will
also be transported along the Sicilian
and Calabrian coasts for distribution in
the inland villages. The illumination
of the city by electric light has been
partly re-established.

The American fleet, which arrived
here Saturday morning and left Satur-
day night created a great impression.
Expressions of gratitude and admira-
tion are still heard on all sides. Ad-
miral Sperry's last act before leaving
was to send a launch with a burial
party to convey the body of Mrs. A. J.
Ogston, wife of the British Consul,
across the straits to the English ceme-
tery.

Claus Spreckels' Will.
Chronicle, January 10.—The will of
the late Claus Spreckels was admitted
to probate yesterday by Superior
Judge J. V. Coffey, and Rudolph and
Claus Augustus Spreckels were ap-
pointed executors, to serve "without
bonds. These were the only members
of the family in court, and the pro-
ceedings were brief and formal.

Both sons took the stand and testi-
fied that the estate is worth approxi-
mately \$10,000,000. Richard T. Thomp-
son, a clerk in the Brooklyn law of-
fice where the will was drawn and one
of the subscribing witnesses, also testi-
fied.

Rudolph Spreckels was absolved
from his bonds as special administrator,
and the proceedings closed with a
request from Attorney C. S. Wheeler
for Judge Coffey's rules as to the in-
ventory and appraisement of estates.

By the terms of the will the income
from the entire estate is to be paid to
the widow, Anna Christina Spreckels,
during her lifetime. Then it is to be
divided into three equal parts, one
each going to the daughter, Emma C.
Ferris, now residing in England, and
the sons, Rudolph and Claus Augustus.

John D. Spreckels and Adolph B.
Spreckels, the other two sons, receive
nothing, the testator stating that he
has already given them large shares
of his estate. The will is dated May
11, 1907.

Senator Connors Dies.
BOSTON, January 10.—John Con-
ness, formerly United States Senator
from California and the last survivor
of the pullbearers of President Lin-
coln, died at his home in Jamaica
Plain tonight after a brief illness. He
was eighty-eight years old.

John Conness was elected United
States Senator from California during
the Civil War period, representing the
State in the upper house from 1863
until 1865. Conness was born in Ire-
land September 22, 1821, and came to
the United States at the age of thir-
teen years. He learned the trade of a
piano-forte maker and worked in New
York city until the discovery of gold
in California. He came to this State
in 1849 and engaged in mining, and
afterward became a merchant.

Conness was a member of the Cali-
fornia Legislature in 1853-54 and in
1860-61. He was a candidate for Lieut-
enant Governor in 1859 and the Union
Democratic candidate for Governor in
1861, receiving 30,944 votes, to 32,751
cast for the Breckinridge Democratic
candidate and 50,030 for Leland Stan-
ford, the successful Republican candi-
date.

Conness was elected as a Union Re-
publican to succeed Milton S. Latham,
a Democrat, in the United States Sen-
ate, in 1863. In the Senate he served
on the committees on Finance and the
Pacific Railroads, and as chairman of
the Committee on Mines and Mining.
After the conclusion of his term in
the Senate, Conness removed to Mas-
sachusetts, where he engaged in farm-
ing pursuits.

py new year. The message was received
first at Midway Island and then trans-
mitted to the wireless station at Hono-
lulu, and thence to Goat Island and to
